Upload Zip File without Unpacking

07/04/2025 2:36 pm MDT

If you do not want DocBoss to extract/unpack the zip folder and upload the zip file as-is, you can drag and drop the zip folder directly onto the card via the Card List. Alternatively, you can upload the file through Outstanding Actions.

To attach a zip folder directly onto a card, follow the steps below:

1) Navigate to the card list (Project Menu > Cards > Card List).

2) Drag and drop the zip file directly onto the appropriate card.

If the zip folder is not the desired primary file, the zip can be uploaded as a secondary file. To do this, (1) click to edit the card (by clicking the pencil icon under "Tools"), and (2) scroll to the "File In Secondary File Format (often the native file)" section and attach the zip file.

File in Secondary File	e Format (often the nati	ve file)	
	Drag and drop new file	Or choose files from disk	
Max upload size 20480Mb			

If files brought in via Incoming Documents need to be zipped, this can be done by selecting the files from the matching grid, clicking "Actions" and selecting "Archive to ZIP".
