Add Custom Equipment Fields

04/03/2025 11:15 am MDT

You may now add an unlimited number of global and project specific equipment fields.

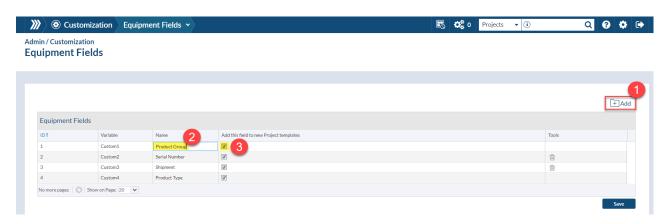

Global Equipment Fields

When you set up global equipment fields they can be used in all your projects. The variables will remain constant, so you can create standardized templates which rely on these values.

To manage global fields: Navigate to Settings (Gear) > Customization > Equipment fields.

		🕄 🗱 0 Projects 🗸 i	Q 😯 🗘 🕩
Hi,			Edit your profile
COP Users	Lists	Admin	
Manage Users	Companies	General	Customization
View Permissions	Contacts	Security Settings	Project (Main) Fields
Manage Sub-Supplier Accounts	Relationships	Stage Lists	Library Card Fields
	Jobs	Distribution Lists	Doc Code/Card Fields
		Compil. & Pkg Presets (List)	Equipment Fields
		Queries List	Custom Lists (for fields)
Library	[[] Reports	Custom Levels	Project Templates
Manage Library	Project Metrics	Routing Scenario	Labels
Library Folders	Assignment Activity (By User)	Generation Status	
		Other Lists	Template Mgmt
		External Company Mapping	Output Templates

Here you can:

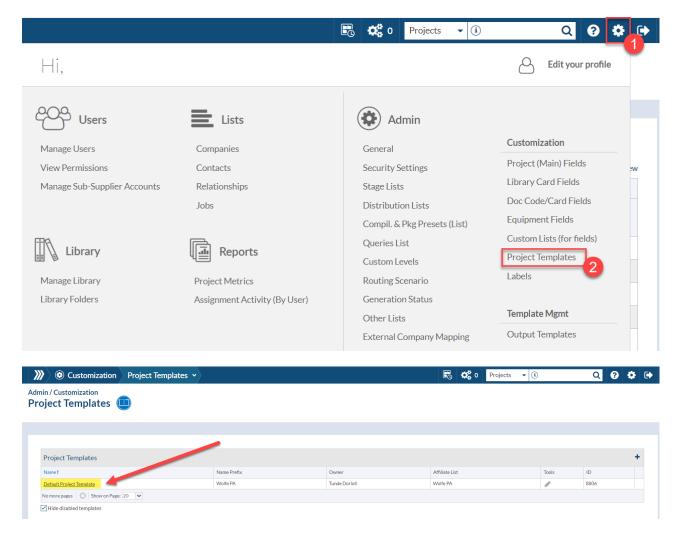

- 1 Add as many custom columns as you need by clicking the Add button
- 2 Change the name of the existent custom fields (i.e. Product Group in Custom1)
- 3 Select to automatically add any custom field to all new project field templates

Once the equipment fields have been created, these have to be enabled in the Project Template.

Enabling the Equipment Fields for New Projects

To enable the fields for **NEW** Projects only, navigate to Navigate to Settings (Gear) > Customization > Project Templates and click on your Project Template.

Here navigate to Equipment Fields section > click on Import Equipment Field > select the custom fields you wish to add and click on Import.

n / Customization										
ect Templates: Defa	ult Project Temp	plate @								
General	Equipme	Import Equipment Field			×				2	
Project Settings		Product Group (Custom1)			- 1			📩 Import Equipment F	jeld 🕇 A	۸dd N
Doc Code/Card Fields	Field	Serial Number (Custom2)			- 1				Tools	
Major Tag Field		Shipment (Custom3) Product Type (Custom4)				e Requ	Tagged Equ	Split multiple values		
Additional Unit Types	Model				1	e Keq		Spirt multiple values		
Combination Fields	Tag				3					
Equipment Fields					- 1					
Project (Main) Fields					4					
			Cancel	Import						

Once the custom fields are added to the grid they should be Enabled.

Enabling the Equipment Fields for Existing Projects

To enable the fields on **EXISTING** Projects, navigate to your Project > click on the Project Menu > Project Templates.

>>>> Pro	oject 18 - 4531TD-5 🗸	Card List 🗸			E ₀ C ⁰ 0 Projects ▼ (i)
Cards Card Lis Standard	Query	Project Hub	Outstanding Actions		Prices & Estimates
Keyword	10	Cards	Cards In/Out	Equipment	Set Up
	and Non-Column Filters	Code List (Requirements) Card List	Incoming Documents Outgoing Submittals	Equipment List Levels	Main Stage Lists
Sul	b-Supplier Override	Card to Unit Changes Obsolete Cards			ACME Return Statuses
Inc	other grid filters	Obsolete Cards			Expedite Settings
U We	olfe PA				Internal Approval Statuses
- Si	elect Sub-Supplier -				Distribution Lists 2 vin

- S	elect Sub-Supplier -				Compil. & Pkg Presets vin
- S	elect Sub-Supplier -				Routing Scenario vin
- S	elect Sub-Supplier -				vin Card States
- S	elect Sub-Supplier -				vin

From here, follow the steps outlined above to import and enable (and optionally set as required and split multiple values if needed).

Add an Equipment Field directly to the Project Template (project-only fields).

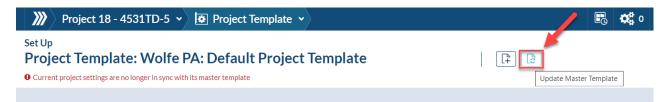

Customization Pr	oject Templates 🐱			ð 🗱	to Pro	ojects 👻 🤅) Q	0 🌣 🕩
Admin / Customization Project Templates: Defa	ult Project Templa	ate I @						
								•
General	Equipment	Fields						
Project Settings							📩 Import Equipment F	
Doc Code/Card Fields	Field	Create New Equipment Field		×				Tools
		Create New Equipment Field						
Major Tag Field				_	Enable		Equipment	
Major Tag Field Additional Unit Types	Custom1	Name (for Custom1000):* Master Line Number		-	Enable	Required	Equipment Split multiple values	Delete
, ,	Custom1 Custom2	Name (for Custom 1000).* Master Line Number 2		-		Required	Split multiple values	a Delete
Additional Unit Types		Name (for Custom1000):* Master Line Number	Cancel Save		7	Required	Split multiple values	

If the equipment fields have **not** been added at the global level, and you know that they will **not** need to be reused in the future, you can create new, project-specific equipment fields.

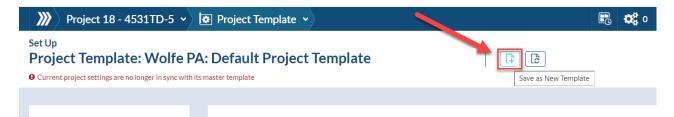

The ID of the equipment fields added directly to the Project Template project equipment field starts at Custom 1000. This will help you to difference between Global Equipment Fields and specific Project Equipment Fields.

To avoid duplication, ensure that the equipment fields are **not** available at the global level. To do this, click the import button and check if they are listed as fields that have not yet been imported.

When there are changes applied to the Project Templates in the Project Menu, there is also the possibility to save back to Admin Project Template:

Or even save as a new Admin Project Template which can be re-used on future Projects.

Where do I enter the values?

Equipment List - is where you can enter/edit the values

Select	•	Wolfe PA Line N	Item/Model	Tag Number	Sub-Supplier	Product Group I	Туре
		1	Blind	8244	Sub-Supplier 1	Y	Stainless Steel
		2	Blind	7036	Sub-Supplier 1	Y	Stainless Steel
		3	Blind	3328	Sub-Supplier 1	Y	Stainless Steel
		4	Blind	1576	Sub-Supplier 1	Y	Stainless Steel
		5	Blind	8109	Sub-Supplier 1	Y	Stainless Steel
		6	Blind	7039	Sub-Supplier 1	Y	Stainless Steel
		7	Blind	8248	Sub-Supplier 1	Y	Stainless Steel
		243	Paddle blank & spacer	8403	Sub-Supplier 1	x	Cast Material
		244	Paddle blank & spacer	1900	Sub-Supplier 1	x	Cast Material

How are they linked to my cards?

.

-

If you look at the card list - you will see the list of custom values related to the card. It shows the unique values from all linked equipment.

Card List										
	Required	Doc Code	Title	Chiyod Doc #1	Type List 🗑	Product Group List 🗑				
		MRB	Manufacturing Record Book	Document Number to be provided by Com	Stainless Steel	Х, Ү				
	V	BOM	Bill of Material	P7564-PO018-400-30-BOM-0010	Stainless Steel	Х, Ү				
	V	DMD	Dimensional Drawing	P7564-PO018-400-30-DWG-0001		х				
	V	DMD	Dimensional Drawing	P7564-PO018-400-30-DWG-0002	Stainless Steel	Y				
		ITP	Inspection and Test Plan	P7564-PO018-400-30-ITP-0001	Stainless Steel	Х, Ү				
		MRBI	Manufacturing Record Book Index	P7564-PO018-400-30-MRBI-0009	Stainless Steel	X, Y				

In each case, these fields can be put onto templates using the variables based on their ID's: i.e. CustomX and CustomX_List
