

# Sub-Supplier Portal (Admin)

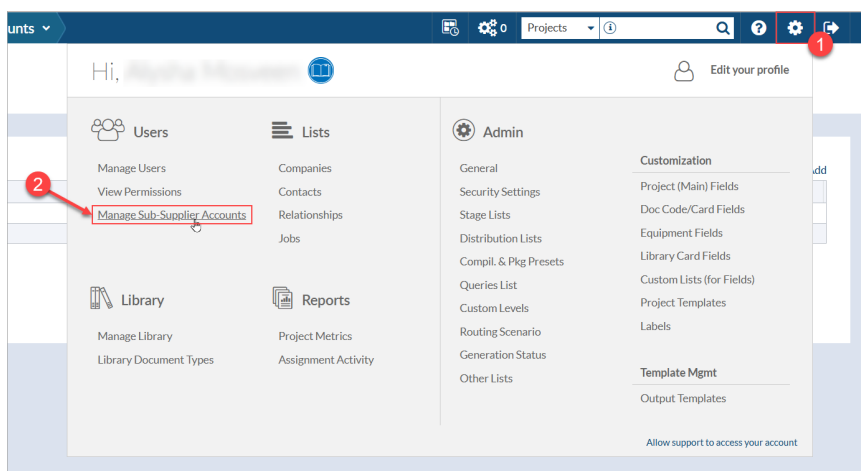

01/19/2026 5:04 pm MST

The sub-supplier portal provides a secure location for your vendors to upload (and download) documents directly into your DocBoss projects. To allow sub-suppliers to view the portal, the sub-supplier will need to be:

1. Added to your system
2. Granted access to the project

## 1. Add sub-supplier account

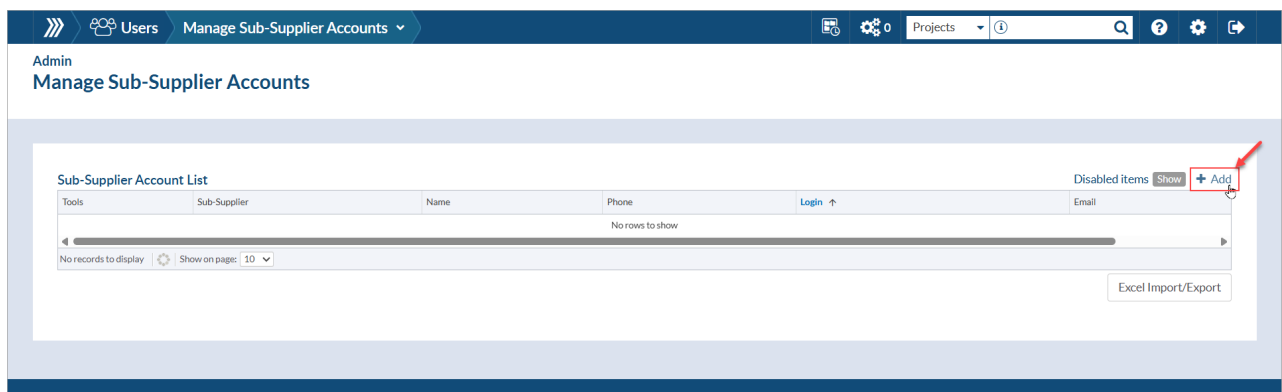

To add a sub-supplier account, navigate to **System Menu > Users > Manage Sub-Supplier Accounts**.

Once on the page, you can add sub-supplier account individually, or in bulk.

## Individual account setup

To individually set up a sub-supplier account, click the "+ Add" button above the grid.

In the form, fill in the details for the specific user account. The users' first and last name are required, along with the system access and password information.

**Add Sub-Supplier Account**

**User Info**

First Name \*

Last Name \*

Address

Phone

Time Zone  
Select or type ahead...

System access

Set password

Cancel Save

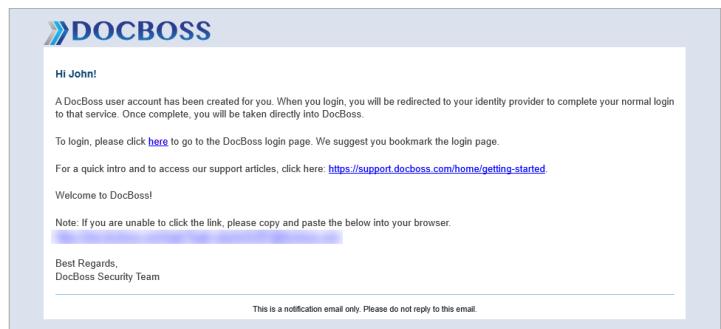

If desired, an invitation email can be sent to the user associated with the sub-supplier account.

**Set password**

☒ Send invitation email

☒ Force user to change password

☐ DISABLE account authentication

## Bulk account setup

To add multiple sub-supplier accounts at once, click the "Excel Import/Export" button below the grid. From the pop-up, download the Excel file and fill out any of the required (\*) fields. Once filled out, upload the file to the same pop-up using the upload drop-box.

**Import/Export**

**Export File**

Download Excel file

**Upload File**

Drag and drop new file Or choose files from disk

Max upload size 400Mb

Cancel Import

You can have multiple accounts for each sub-supplier, but **each account will have access to all of the same sub-supplier projects** (automatic project lists).

## 2. Enable sub-supplier access on project

Once the sub-supplier(s) have been added to the system, access for sub-suppliers will need to be granted on individual projects. To allow sub-suppliers access to a project, navigate to **Project Menu > Set Up > Project Configuration**. From the "Advanced" tab, choose "Yes" for the "Allow Sub-Supplier Access" option.

The screenshot shows the 'Project Configuration' interface for 'Pump Project (1234)'. The 'Advanced' tab is selected. On the left, there is a sidebar with sections: 'Defaults' (containing 'Doc Code Queries' and 'Library Queries'), 'Packaged Cards' (containing 'Stage List Settings'), and 'Workflow'. The 'Workflow' section is expanded, showing 'Submittals' settings. A red box highlights the 'Allow sub-supplier access' dropdown menu, which has 'Yes' selected. A red arrow points to the 'Yes' option. Other settings visible include 'Exceptional handling default (for file uploads)' set to 'Off', 'Require recipient to authenticate when accessing submittals' set to 'Yes', and 'Submittal cover page bookmark pattern' set to '<Title>'. There are also checkboxes for adding cover pages to IA files under various conditions.

## Visibility

Before a project will display in the sub-supplier portal, the sub-supplier must be listed on **at least** one piece of tagged equipment OR a document must have the sub-supplier set in the override field.

In addition, the project must **not** be hidden OR completed.

Hidden?	Completed?	Visible from the portal?
No	No	Yes
Yes	No	No
No	Yes	No
Yes	Yes	No

## Sub-supplier notifications

Users can specify if they would like to be notified about sub-supplier submittals (for all projects, or just their own projects).

To update this setting, navigate to **System Menu > Users > Manage Users**. Click the pencil icon (under "Tools") for the user profile in question. In the "System Notifications" section, modify the notification setting to the users' preference.

The screenshot shows the 'Manage Users' interface. On the left, there are sections for 'Profile', 'Access', and 'Signatures and Certificates'. On the right, there are sections for 'Notifications' and 'Defaults'. The 'Notifications' section is expanded, showing 'System Notifications' and 'Email Notifications'. The 'System Notifications' dropdown menu is open, showing three options: 'My projects only', 'All projects', and 'My projects only'. A red box highlights this dropdown menu, and a red arrow points to the 'My projects only' option.

With sub-supplier notifications enabled, the user will receive a notification in their system (displayed as a red bell) when a submittal has been made by a sub-supplier. The red bell will redirect the user to the Project List and where a list of projects with unprocessed submittals will be displayed.

Once the appropriate project is selected, navigate to **Project Menu > Cards In/Out > Incoming Documents** to see the submittal listed in the "Files from Sub-Supplier" grid.

The screenshot shows the 'Incoming Documents' interface. At the top, there is a navigation bar with 'Project 3 (003)' and 'Incoming Documents'. A red arrow points to a red bell icon in the top right corner, indicating a notification. Below the navigation bar, there are two sections: 'Files from Sub-Supplier' and 'Files from Internal/3rd Party'. The 'Files from Sub-Supplier' section contains a table of existing submittals. A red box highlights the row for 'T-003' (10/30/2020, 0/3, Supplier Wolfe CA), and a red arrow points to the 'Tools' column of this row.

Name	Submittal Date	Progress	Sub-Supplier	Tools
T-001	9/25/2020	1/1	Supplier Wolfe CA	
T-002	9/25/2020	1/1	Supplier Wolfe CA	
T-003	10/30/2020	0/3	Supplier Wolfe CA	

To see how sub-suppliers view notifications in the portal, see this article: [Sub-Supplier Portal \(Supplier View\)](#).

*Note: Email notifications will only be sent to sub-suppliers if the option is selected on submittal (see article: [Options for outgoing \(submittal\) notification emails](#)).*

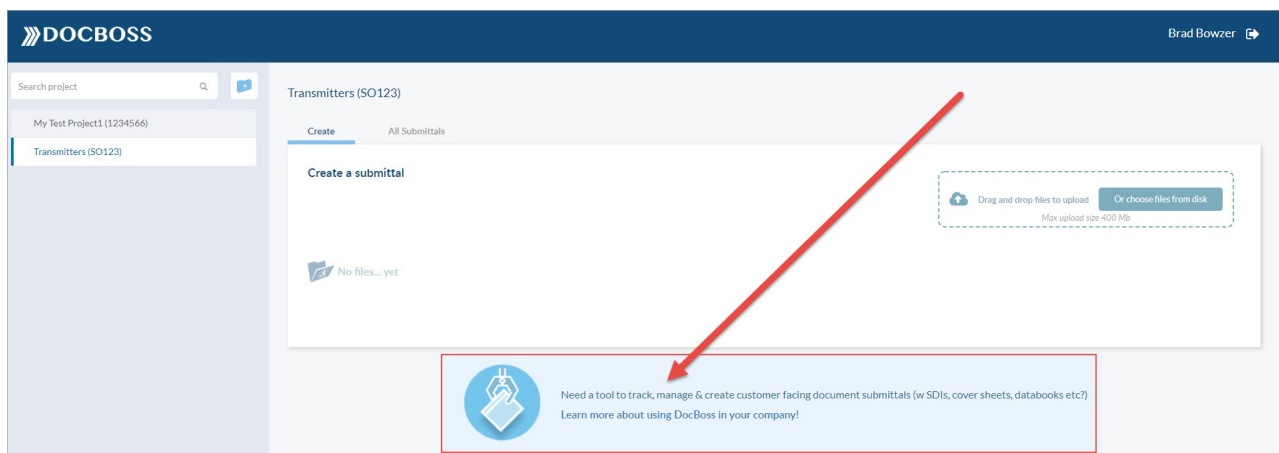

## Sub-supplier portal security

Sub-supplier accounts, like DocBoss user accounts, can have multi-factor authentication (MFA) enabled for additional security. For instructions on enabling MFA for the sub-supplier portal, see this article: [Multi Factor Authentication \(MFA\) for Users](#).

## DocBoss messaging on sub-supplier portal

The use of the sub-supplier portal is included in your DocBoss subscription, and simply requires that you provision an account to your vendor. In exchange for this function, a small advertisement is placed below the portal grids that encourages vendors to consider DocBoss for their own use.

Example:

If you wish to use the portal but suppress all DocBoss messaging, please reach out to our support team. The vendor focused messaging can be disabled for an additional fee.

To learn more about the sub-supplier portal, check out this short overview: [Vimeo: Supplier Portal](#).
