

DocBoss Support Site Navigation (New)

09/02/2024 11:54 am MDT

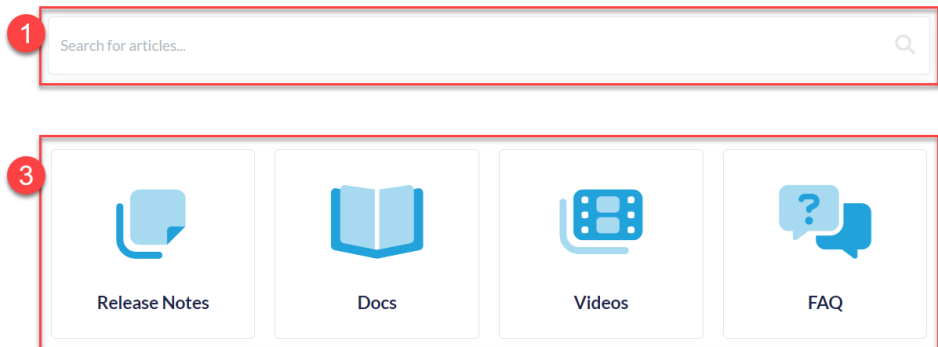

Welcome to our new support site! Here you will find all of the same articles from our previous help docs, but organized in a way that we hope will be more intuitive to navigate.

There are three ways to access articles from the main page of the user guide:

1. **Search:** type in your keyword and hit enter to search - just like on the old site.
2. **Page tree:** select the three lines in the top left corner to open a panel listing the folder structure so you can quickly access the section you're looking for.
3. **Icons:** select any of the main icons to navigate through each section.

DocBoss Support

Hover over text that appears with a double underline - for example, card list - to see a definition of the term. View the full list of definitions in the Glossary, found on the page tree (#2 above).
