

# Meet Rigid Formatting Requirements

04/13/2026 2:10 pm MDT

## Build databooks in *their* format

Define codes and documents to be included in each databook. Add complex requirements like hyperlinked tables of contents and bookmarks based on your customer's demands.

### Add documents

Add documents to each databook with a single click. Still need to show documents which are not applicable or included in other documents? We can do that.

### Automated bookmarking

Does your customer require a bookmarked table of contents? This time consuming task is completed by DocBoss automatically!

### Custom formatting

The depth of the table of contents, section numbering, naming conventions (and more!) can all be easily adjusted, making it easy to fulfill your customer's requirements.

## Learn what DocBoss can do for you
