

Auto-Create Sub-Books

04/13/2026 2:51 pm MDT

Create multiple databooks simultaneously

Easily generate multiple books by equipment or shipment. DocBoss automatically assigns the right documents to the right sub-book!

One compilation, multiple books

Create the compilation structure once, and DocBoss does the rest - each book will include only the relevant documents.

Remove empty sections

If a book does not include any documents for a given section, it can automatically be excluded from the table of contents.

Regenerate books

When you're ready to generate, one or more books can be generated simultaneously.
