

Easily Package Submittals

04/17/2026 8:23 am MDT

Meet your customer's submittal preferences

Generate complete submittals in zip files, combine documents together into a single PDF, and even create separate submittals for each individual document. DocBoss provides the tools you need to meet your customer's unique submittal requirements.

Package documents

DocBoss can combine all submittal files into a single zip for easy delivery. Need to package individual drawings into a single PDF? We can do that, too. Upon return, DocBoss will unpack it for you, allowing you to status each document individually.

Single-file submittals

Does your customer require that each document be issued as a separate submittal? DocBoss can create separate submittals for you automatically, saving you an enormous amount of work.

Include additional documents

Sometimes, you may be asked to add supporting documentation outside of the project's scope. Not to worry - you can add additional documents to any submittal.
