

# Cloud-Based Security

04/20/2026 11:48 am MDT

## Safeguard your data with a secure doc control system

DocBoss is hosted in the cloud, and we take security seriously. We're happy to answer questions about how we keep your data safe.

### Information security

We have adopted the Cloud Security Alliance (CSA) Security, Trust, Assurance, and Risk program as the framework for our information security management system.

### Cybersecurity controls

Our information security management system is thoroughly examined and tested against the Consensus Assessment Initiative Questionnaire (CAIQ v4).

### Penetration testing

Our systems are regularly evaluated and certified by external parties using penetration/vulnerability tests.

## Learn more about how we protect your data
