

# Can I see which projects have pending submittals without opening them?

05/13/2026 12:48 pm MDT

The projects with cards in the queue for submittal can be identified from the project list (Logo Menu > Project List). Each submittal target (customer/sub-supplier/internal) has a separate column which can be filtered using a variety of different conditions (equal to, less/more than, etc.).

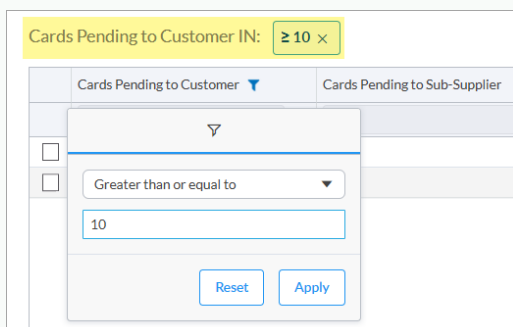

The screenshot shows the 'Project List' interface. At the top, there are navigation tabs: 'Actions Dashboard', 'Project Dashboard', 'Project List', 'Multi-Project Card Report', and 'Expedit'. Below the tabs, the 'Project List' title is displayed. A search bar labeled 'Keyword' is present. The main table has columns for 'Cards Pending to Customer', 'Cards Pending to Sub-Supplier', 'Cards Pending to WI', and 'Tools'. A filter dropdown menu is open over the 'Cards Pending to Customer' column, showing a list of conditions: 'Equals', 'Between', 'Equals', 'Does not equal', 'Less than', 'Less than or equal to', 'Greater than', and 'Greater than or equal to'. A red arrow points from the 'Equals' option in the dropdown to the 'Equals' option in the filter field of the table.

**Example:** You would like to see the projects which have 10+ cards available to submit to the customer.

To do this, use the "Greater than or equal to" condition and type "10" in the filter field.

The screenshot shows the 'Project List' interface with a filter dropdown menu open over the 'Cards Pending to Customer' column. The filter field is set to 'Greater than or equal to' and the value '10' is entered in the filter input field. The 'Reset' and 'Apply' buttons are visible at the bottom of the dropdown menu. A yellow highlight is present on the 'Cards Pending to Customer IN: ≥ 10 x' label above the table.
